	Application No.	Applicant(s)				
	10/707,958	FUSON, PHILLIP L.				
Office Action Summary	Examiner	Art Unit				
	Samuel M. Heinrich	1725				
The MAILING DATE of this communication app	ears on the cover sheet with the c	orrespondence address				
Period for Reply						
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).						
Status						
 Responsive to communication(s) filed on 11 November 2005. This action is FINAL. 2b) This action is non-final. Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. 						
Disposition of Claims						
4) ☐ Claim(s) 1-92 is/are pending in the application. 4a) Of the above claim(s) 16-92 is/are withdrawn from consideration. 5) ☐ Claim(s) is/are allowed. 6) ☐ Claim(s) 1-15 is/are rejected. 7) ☐ Claim(s) is/are objected to. 8) ☐ Claim(s) are subject to restriction and/or election requirement. Application Papers 9) ☐ The specification is objected to by the Examiner. 10) ☐ The drawing(s) filed on 28 January 2004 is/are: a) ☐ accepted or b) ☐ objected to by the Examiner. Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a). Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d). 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.						
Priority under 35 U.S.C. § 119						
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 						
Attachment(s) 1) Notice of References Cited (PTO-892) 2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date 04/29/2004	4) Interview Summary Paper No(s)/Mail Da 5) Notice of Informal P 6) Other:					

Art Unit: 1725

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I, claims 1-15, in the reply filed on November 11, 2005 is acknowledged. The traversal is on the ground(s) that there are no material differences between the Groups and there is no serious burden on the examiner. This is not found persuasive because the searches required for the different Groups are not coextensive and because the searches required for the apparatus and methods are not coextensive and the apparatus can be used for different processes.

The requirement is still deemed proper and is therefore made FINAL.

Claims 16-92 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on November 11, 2005.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by USPN 4,843,209 to Milligan. Milligan discloses laser, fiber optics, lens, and multiplexer-controller in a material processing environment. The intended use of a

Application/Control Number: 10/707,958

Art Unit: 1725

device in a vacuum, zero gravity, or with a particular work piece such as an aerospace vehicle does not impart patentability to apparatus claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 5-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 4,843,209 to Milligan as applied to claim 4 above, and further in view of USPN 6,918,905 to Neuberger. Neuberger discloses a multi-piece housing (Figure 5) and the use of any well known work piece housing with the apparatus disclosed by Milligan would have been obvious at the time applicant's invention was made to a person having ordinary skill in the art because containment of a work environment is well known for ablative work processing. Multiple devices, location pins, and levers for tool operation are all well known working tool features and the incorporation thereof into a housing or work piece holder such as Milligan or Neuberger disclose would have been obvious at the time applicant's invention was made to a person having ordinary skill in the art because the tooling features provide good interaction between the tooling and the work.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hatakeyama et al disclose processing a plurality of surfaces of a work piece.
